Create a Nature Collage

Create a stunning work of art from natural materials. Spend some time outside in the fresh air collecting different leaves, flowers, twigs, seeds and other goodies from your yard. Then use your collected bits and pieces to make a beautiful keepsake. All you need is some glue and something to stick your artwork on. Cardboard, paper and paper plates are all great canvases. The sky's the limit to what you can make, so head on outdoors and get creative! Here's a few examples to get you started.
