

DAILY BOREDOM BUSTER

Amazing Mazes

Keep your kids entertained for hours - and all they'll need is some crepe paper, masking tape and their imagination!

Let your children create fun mazes by taping crepe paper between the walls in a hallway or other small area. Then, once they've set their maze up, the real challenge is to find their way through it! Kids can challenge themselves or set up mazes for their siblings to navigate. The options are endless, because no two mazes are ever the same!
